

STANDARD TERMS AND CONDITIONS - PAGE 4 OF 20

4. Additional Charges (Continued)

(e) **Service Activation Fee**

Utility will charge Customer a service activation fee of \$8.00 when Customer requests service under Service Classifications 2, 3, 10, 11, 12, 13, 14 or 15.

(f) **Account Charge**

Utility will charge Customers an Account Charge as provided in Rider G.

* (g) **Historic Customer Information**

- * (i) Upon request by a Customer or an agent acting for Customer, as demonstrated by Customer's verifiable authorization, Utility will provide the requestor with (i) up to 12 months ("Block") of specific historic energy usage data or interval metering data; (ii) the number of meters, meter type, voltage and other pertinent meter data, for interval or non-interval meters. Utility will not charge the requestor of the information.
- (ii) By written notice Customer may direct Utility to reject requests to provide the Customer's specific information to any entity other than Customer. Customer's written directive shall be effective 10 Business Days after receipt by Utility. Customer may rescind the directive to Utility upon not less than 10 Business Days written notice.

4.g. (Continued)

*

(h) **Copying Fee**

Utility will charge \$0.25 per page for copying requested by Customer, Customer's authorized agent or any other entity, other than copies provided pursuant to Section 4(g) or 4(i).

* (i) **PPO Calculator**

Utility will not charge Customer or any entity with verifiable authorization from Customer for use of its PPO Calculator, which is designed to determine the estimated cost difference between service under bundled rates and service under Rider PPO, via Utility's web site or by Utility personnel.

5. **Definition of Tariff Terms**

Unless specifically defined in an individual service classification, rate, rider, or special contract, the following definitions shall be applicable for service under Ill. C. C. No. 31 and Ill. C. C. No. 33.

Activation Date means either (i) the date upon which Customer's electric power and energy service from a Retail Electric Supplier or from Utility under Rider PPO will begin, or (ii) the date upon which Customer's Metering Service from a Meter Service Provider will begin, as applicable.

Administrative Code refers to Chapter 83, the chapter of the Code that contains the regulations issued by the Illinois Commerce Commission.

RIDER PPO - PAGE 2 OF 13

2. Availability (Continued)

- d. That Customer's PPO Contract shall specify a PPO Capacity such that the total of (i) Customer's PPO Capacity under such PPO Contract plus (ii) Customer's PPO Capacities under any other PPO Contracts entered into by Customer and still in effect plus (iii) the portion of Customer's Distribution Capacity allocated to Delivery Services under that is in excess of Customer's PPO Capacities under its PPO Contracts plus (iv) Customer's capacity under Rider PRS shall not exceed Customer's Distribution Capacity as of the date service to Customer under this Rider pursuant to such PPO Contract commences. Provided, however, that the PPO Capacity for a Customer taking all of its electric energy requirements under a single Firm PPO Contract shall be equal to that Customer's Distribution Capacity at all times.
- e. That the amount of PPO Energy supplied by Utility to Customer (and any Assignee) under this Rider in any hour shall not exceed the amount of energy delivered by Utility to Customer during such hour under SC 110.
- f. That Customer (and any Assignee) shall continue to comply with all terms and conditions of service under SC 110, provided, that Utility shall act as Customer's Transmission Service Agent to arrange for and schedule Transmission Service for Customer's purchases of electric power and energy from Utility pursuant to this Rider.
- * g. That Customer's Transition Charge determined pursuant to Rider TC is greater than zero on the effective date of Customer's PPO Contract. If Customer's Transition Charge determined pursuant to Rider TC becomes zero, Utility shall provide Customer with at least 30 days' written notice that Customer's PPO Contract (and any rights of an Assignee to the electric power and energy purchased by customer under such PPO Contract) and Customer's right to service under this Rider (and the right to service of any Assignee) shall terminate at the end of the current term of Customer's PPO Contract. The current term of Customer's PPO Contract may be extended if necessary to ensure the Customer receives at least 30 days' notice. If Customer's Transition Charge determined pursuant to Rider TC becomes zero due to a change in Utility's market values published pursuant to Section 4(c) of Rider Rider MVI II within 30 days prior to the end of the current term of Customer's PPO Contract, thereby terminating Customer's PPO Contract, at the end of its current term, Utility will allow Customer to return to Bundled Service on the Customer's next regularly scheduled meter reading date that occurs 30 days or less from the date Utility notifies Customer of the Rider TC charge becoming zero, provided Customer notifies Utility no more than 2 Business Days after Utility's market values are published that Customer desires to return to Bundled Service.
